

# I PULLED AN ALL-NIGHTER\*

\* ALL-NIGHTER:  
When you work through the entire night; studying without sleep. You won't be pulling many of these any more because you will be taught how to manage your time efficiently.

\* LASER:  
The new laser-cam technology in the Graphic Design Department. Enables you to cut through a variety of papers, woods or even glass. Handy for that perfect cut or die-cut.

# I GOT STUCK-IN\* I TOOK A FEW SHOTS FLAT OUT\*

\* STUCK-IN:  
When you get engrossed in college life without fear of becoming bored or having not much to do. The multitude of projects will vary helping you get 'stuck-in' every time.

\* SHOTS:  
When a photographer uses a camera to capture an image, mood or moment which has inspired them or tells a story. This could be focused specifically to wildlife, still-life, sports, etc...

\* FLAT OUT: Plain, open and direct. At full capacity, at maximum speed, totally, thoroughgoing. Going 'flat out' in your studies will enable you to go very far ...

# THE LASER\* PUT ON QUITE A SHOW

Blackpool & The Fylde College, University Centre, Central Hub Building, Bennett Avenue, Blackpool FY1 4EE

# IT WAS HEAVY\* UNTIL IT GOT LIGHT BUT THE GRADES & MATES WERE WORTH IT!

\* HEAVY:  
Several different meanings; serious, when something is unbelievable, out of the ordinary. OR when something is good, excellent, brilliant. Your time here at Blackpool will definitely be 'heavy'.

## LEARN THE LANGUAGE OF ART AND DESIGN
